Youssef Elhawary

Frontend Developer | React, Next.js and TypeScript

Egypt | youssefelhawary012@gmail.com
github.com/ysfhawarydev | ysfhawary.dev

PROFILE

Computer science student and full-stack developer with internship experience building responsive React interfaces and integrating them with REST APIs. Builds TypeScript applications with reusable components, role-specific workflows and automated tests.

EXPERIENCE

Full-Stack Development Intern | Auspify Technologies
October 2026 - November 2026
Developed React and TypeScript interfaces and NestJS REST endpoints for a learning management system backed by PostgreSQL and Drizzle ORM.
Implemented role-based workflows for administrators, instructors and students. Verified authentication and API behavior with Vitest and Supertest. The project reached 464 passing unit and end-to-end tests at a documented milestone.

SELECTED PROJECTS

CareerBridge Job Portal | Next.js, TypeScript, Fastify, PostgreSQL
Built job-search, saved-job and application-status workflows. Integrated validated APIs with role-based permissions. Verified 79 passing API tests and CI builds.

E-Commerce Web Application | React, TypeScript, Node.js
Built a responsive storefront and connected product browsing, cart, checkout, authentication and administration workflows to backend services.

TECHNICAL SKILLS

React, Next.js, TypeScript, JavaScript, Tailwind CSS, HTML, CSS, REST APIs, Node.js, Git, GitHub Actions, Vitest, Supertest

EDUCATION

Alexandria University | Bachelor's degree in Computer Science, in progress
Expected graduation 2029
